

Update on behalf of NAGA Manitoba

Dear Members,

On behalf of the Manitoba Allied Association (Canadian Society of Club Managers, Golf Manitoba, Manitoba Golf Superintendents Association, National Golf Course Owners Association Canada and PGA of Canada, Manitoba Zone), we wanted to send you a note to update you on the work we are doing together on behalf of the golf industry in Manitoba.

As you are well aware, golf in Manitoba has been deemed a non-essential business service within the current Public Health Order which means that all courses must remain closed at this time. Golf courses can however continue to employ staff to maintain the course ensuring that the staff follow social distancing practices and all other safety protocols as directed by the Chief Provincial Public Health Officer.

As the Province of Manitoba develops their action plan for economic recovery, the Manitoba Allied Golf Association has extended their support towards this task. In addition to the health and safety of our communities, we understand the importance of restarting the economy as well as ensuring the mental health of people moving forward through the recovery phase and we believe that golf is uniquely positioned to help support that mission.

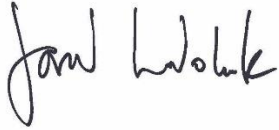

Fortunately, golf courses are very well positioned to adhere to all physical distancing, sanitation and safety protocols established by the Chief Provincial Public Health Officer so it is for these reasons that we have submitted our request to government that golf courses be among the first industries for approval to open once the COVID-19 health management allows for Provincial economic recovery strategies to proceed.

We have also developed golf course Safety Best Practices that further support the safety commitment of the golf industry. These have also been provided to government. Click [here](#) to access the Safety Best Practices.

Overall, golf in Manitoba generates \$636 million in gross domestic product, more than all other participation sports. That includes millions of dollars in charitable funds raised each year, once again more than all other sports and our 134 golf courses and driving ranges employ over 16,000 Manitobans. As you can see, we are an important part of the government's economic recovery plan once government feels they can safely begin to expand the list of businesses allowed to be open.

We will continue to work on your behalf and keep you updated as this issue develops. Please do not hesitate to reach out to us if you have any questions.

Stay well!!

A handwritten signature in black ink, appearing to read "Jared Ladobruk". The signature is fluid and cursive, with the first name "Jared" and last name "Ladobruk" clearly distinguishable.
