Already in my first few weeks of University I have been taught more than just the course curriculum. Whether it’s balancing equations in class or finding the right balance between practice and study time, I firmly believe that these experiences aid in my personal growth now and even more so in the long run. I am extremely thankful Golf Canada has given me this scholarship as it has helped minimize many outside factors and has allowed me to focus on my academic studies and athletic career. “

My favourite program is our girls only club, which aims to grow the game in young girls, and create long lasting friendships. This year I will also be volunteering as a peer mentor to first year students.
